

Report on the evaluation of the publications in 2022

Charles University, Faculty of Mathematics and Physics, School of Mathematics

As in the previous 10 years, members of the Council of the project Cooperatio – Mathematics¹ (successor to PRVOUK P47 and Progres Q49) have evaluated the publications published in 2022 by the members of the School of Mathematics, and decided on the rewards for the authors of the best of them. The decision-making process is described in more detail on the next page.

Summary

The members of the Council had complete information on all publications kept in the OBD/RIV database with the year of publication 2022, for which at least one of the authors was a member of the School of Mathematics. There were the **214** publications, all having RIV status "accepted". In the most important category of original scientific articles, we have recorded **208** of which **188** were published in journals with IF. More detailed information on publications in the main categories, including the history since 2012, can be found in the following table.

Publications of the members of the School of Mathematics since 2012

year	journal with IF	journal without IF	journal total	book / monograph	chapter in monograph	conference proceeding	total
2012	139	41	180	1	10	69	271
2013	157	34	191	6	7	53	257
2014	147	25	172	3	6	53	234
2015	166	27	193	5	6	48	252
2016	152	23	175	2	2	39	218
2017	156	27	183	1	5	27	232
2018	164	28	192	2	18	34	246
2019	154	37	191	7	16	35	249
2020	189	29	218	7	14	38	277
2021	190	30	220	0	2	23	245
2022	188	20	208	2	0	4	214

The following table shows the number of journal publications in D1, Q1, Q2, Q3 and Q4 quartiles according to AIS factor. Each journal has one AIS factor but the journal can belong to different quartiles according to the journal groups, e.g., "Q1 - Mathematics" & "Q2 - Mathematics, Applied". In this case, the best group is taken into account. The group Q1 includes also D1.

year	D1	Q1	Q2	Q3	Q4	total
2022	24	67	26	38	14	145

A description of the process of evaluation

Each member of the Council received a complete list of all publications including the link to the electronic version of publication ordered with the descending order of AIS journals and indication to which group D1, Q1, Q2, Q3, Q4 they belong.

In the first evaluation round, each member of the Council proposed best publications in his area of expertise. It was possible to give the marks "A" or "B" in order to express the preference. The list of 64 publications having at least one mark had arisen.

Then coordinator prepared table with the indicated marks and proposed an evaluation of the publications 5 days before the meeting of the council which hold on May 18, 2023. Then this proposal has been discussed and some modifications have been carried out. Some minor modification were carried out after the meeting and the final list of the awarded publications has been approved per-rolam during May 22-24, 2023.

Members of the Cooperatio Council decided in advance (as in previous years) that they themselves cannot be rewarded for publications. However, co-authors of publications who are not members of the Cooperatio Council may be rewarded.

Selected publications

(A) List of **18 publications** in the **Elite** category, whose (co) authors are members of the School of Mathematics, and who affiliated their publication to MFF UK (the order of publications is random). Only the highlighted authors could be rewarded (i.e. they have an employment relationship with the MFF and at the same time are not members of the Cooperatio Council; alternatively they are students of the MFF).

We congratulate all the rewarded authors.²

On behalf on Cooperatio Council V. Dolejší, May 23, 2023.

²The financial reward depends on the number of authors and the number of affiliations, it will be carried out on September/October 2023.
