

Stochastic analysis and its applications VII

First announcement

Dear Colleagues,

this is the first announcement about the 7th workshop focused on stochastic analysis, stochastic differential equations and their applications. The workshop will be held

- on **January 3-4, 2011**
- at the Charles University **in Prague**, Faculty of Mathematics and Physics, Department of Probability and Mathematical Statistics, Sokolovská 83, Prague 8 - Karlín, in the room called respirium.

The program will be updated continuously and it will be available from **4.11.2010** at http://www.karlin.mff.cuni.cz/~dostal/workshop_2_11.pdf

In order to be able to put the program together, we need speakers to provide information whether they intend to have a talk there by **3.11.2010**. We appreciate also the title of the talk and also the abstract.

We intend to have a final form of the program at the above written address by **4.12.2010**, and so we would like the speakers to fix the title of their talk by **3.12.2010**.

All the available information about the workshop can be found at the web page of the event

<http://www.karlin.mff.cuni.cz/~kpms/workshopVIIa.html>

We expect that the contributions will be in English.

If you are going to attend a workshop dinner on Monday, you should count on expenses about CZK 300.

If you are a participant of the workshop and you need an accommodation during this event, please let the organizers know by return.

We are looking forward to Your attendance.

Petr Dostál
chairman of the organizing committee
